

## **PETIZIONE**

### **I lavoratori dell'area Monopoli dell'Agenzia delle dogane e dei monopoli**

#### **CONSIDERATO CHE**

a un anno dall'incorporazione ancora non sono risolte le contraddizioni con cui è stato dato avvio a tale processo;

sono tuttora penalizzati da una rigida divisione in distinte sezioni che separano il personale in paratie stagne allo scopo di giustificare assurde e ingiuste differenze salariali in merito alla corresponsione dell'indennità di amministrazione;

l'incoerenza con cui procede il processo di incorporazione, la stasi gestionale e la resistenza passiva e omissiva della dirigenza, stanno causando enormi problemi nell'operatività complessiva del settore e spesso l'abbandono a se stessi dei posti di lavoro, lasciati senza direttive, capacità organizzativa, possibilità di funzionamento;

tale situazione rischia di protrarsi e acuirsi, pendendo l'annuncio di ulteriori e imprecisati progetti di interventi normativi che, tra l'altro, l'assoluta indeterminatezza del quadro politico di governo rendono non solo non chiari (e pertanto pericolosi anche per l'impatto possibile sui lavoratori e l'occupazione) ma anche inaffidabili;

Occorrono risultati tangibili, agendo anche nell'immediato dei provvedimenti economici che saranno assunti nelle prossime settimane e in prospettiva rispetto alle *"eventuali modifiche normative"* previste nel DDL fisco, approvato alla Camera e ora al Senato;

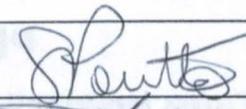

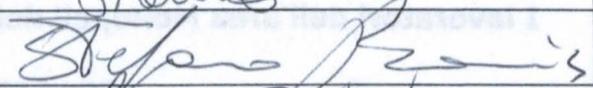

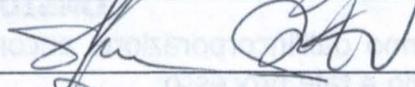

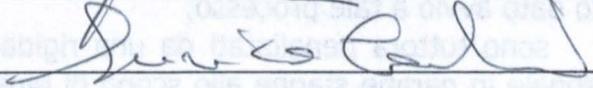

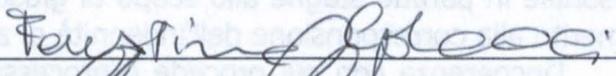

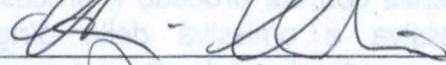

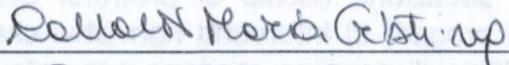

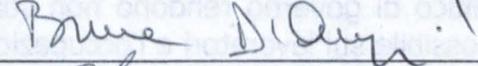

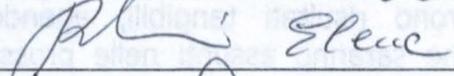

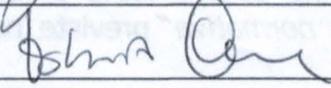

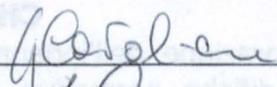

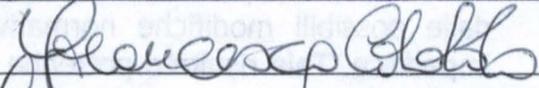

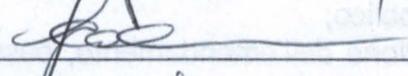

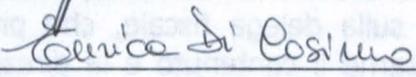

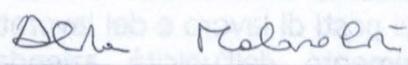

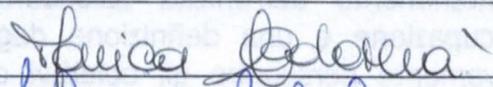

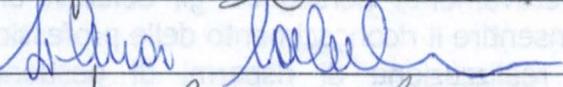

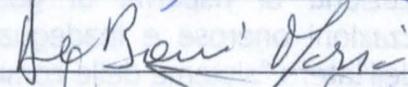

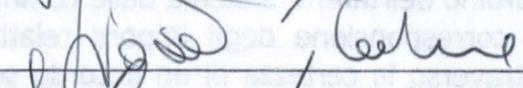

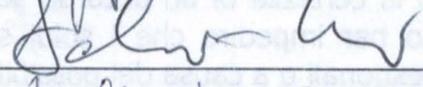

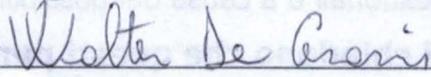

#### **CHIEDONO**

- l'immediata equiparazione dell'indennità di amministrazione, prima e a prescindere dalle possibili modifiche normative mediante la soppressione della norma che la impedisce. Tale risultato potrebbe essere raggiunto senza richiedere maggiori oneri al bilancio pubblico;
- la cancellazione dell'emendamento, passato presso la Camera dei Deputati durante la discussione sulla delega fiscale, che prevede la possibilità di modifiche normative senza precisarne il contenuto e la direzione, determinando incertezza sul futuro del settore, dei posti di lavoro e dei lavoratori;
- il mantenimento dell'unicità aziendale, la salvaguardia dei posti di lavoro e dell'occupazione e una definizione degli organici che possa permettere di poter effettivamente perseguire gli obiettivi di contrasto al gioco illegale e all'evasione, consentire il riconoscimento delle professionalità e lo svuotamento della prima area;
- la realizzazione di risparmi di gestione attraverso la messa in discussione di esternalizzazioni onerose e inadeguate, come quella con la SIAE e la verifica e il riordino dell'intero "sistema delle commissioni";
- la corresponsione degli importi relativi alle cosiddette "provvidenze la personale", attraverso la certezza di un accordo scritto con i vertici dell'Agenzia da firmare entro quest'anno per impedire che i soldi spettanti ai lavoratori possano disperdersi per carenze gestionali o a causa dei possibili nuovi scenari normativi.

**I lavoratori chiedono che questi punti siano portati avanti con coerenza e determinazione, senza deleghe in bianco al governo e alle forze politiche.**

**I lavoratori chiedono di essere coinvolti nelle decisioni, senza trovarsi di fronte a decisioni assunte senza un percorso democratico e partecipato.**
